Rahul M. Mehta

Full Stack Developer

📞 9409479818 @ rmmehta2468@gmail.com 🔗 rahull0328.github.io

SUMMARY

Full Stack Developer with strong expertise in **MERN, Django, ASP.NET, PHP, MySQL, JAVA, MEAN**. Skilled in developing responsive web applications with a focus on clean code, scalability, and performance. Experienced in both **frontend technologies** (React, Bootstrap, jQuery) and **backend frameworks** (Django, ASP.NET, PHP). Proficient in **RESTful APIs**, CRUD operations, database design, and integration of third-party services. Familiar with tools such as Git, GitHub, Visual Studio, and Postman. Passionate about UI/UX design and committed to delivering innovative solutions while continuously learning and evolving within the tech industry.

PROJECTS

Chatty

Chatty is a real-time chat application built with the MERN stack and Socket.io offering features like user registration, login, profile updates, image sharing, and theme customization. It provides an interactive and personalized chatting experience with smooth real-time communication.

Picklify

Picklify is a Django-powered e-commerce solution focused on performance optimization and seamless transactions. It includes load testing to handle traffic, image caching for faster load times, and invoice generation on successful placement of orders. Perfect for scalable online stores!

ByteNews

Your go-to news app powered by NewsAPI and Flutter delivering real-time headlines in a sleek & modern UI. Stay updated with breaking news, trending stories, and personalized feeds all in a fast, byte-sized experience.

CoffeeMania

CoffeeMania is an online cafe powered by PHP & MySQL.Easily register or log in to browse our menu, add items to your cart, and place orders with just a few clicks. Enjoy a smooth, secure shopping experience
